## Education

---

### **Bundelkhand University, Jhansi**

*Bachelor of Technology in Electronics and Communication Engineering* Oct 2023 - 2027

## Experience

---

### **Advisor @Prayas The Innovator's Society**

- Mentored and guided club members in organizing technical workshops and events.
- Designed and implemented structured learning paths for students to enhance their skills in programming and hardware projects.
- Assisted in promoting events through poster designs and outreach strategies, ensuring maximum participation.

### **Internshala Student Partner**

- Acted as a campus ambassador for Internshala, promoting internships and online training programs among students.
- Enhanced communication and marketing skills by interacting with students and professionals.

## Projects

---

### **TODO App (Flutter)**

- Developed a fully functional and user-friendly TODO application, showcasing state management and app development skills.

### **An IoT Based Smart Irrigation System**

- Developed an automated irrigation system using two ESP8266 modules with ESP-NOW.
- Configured a master ESP8266 to display real-time temperature, humidity, and soil.
- Integrated the Blynk cloud platform for remote monitoring, allowing users to view data and control the irrigation system via a mobile app.

## Certificates

---

- Web Development Decoded by **GDSC\_BU**
- AI Tools Workshop by **be10x**
- IDE BootCamp 2023
- IoT & its Application by **DST-TEC, bundelkhand University, jhansi**

## Technical Skills

---

**Programming Languages:** Java, C/C++, Python(Familiar), JavaScript

**Web Development:** HTML/CSS, JavaScript, React(Learning)

**Backend Development:** Node.js, Express.js(Learning)

**Database Management:** MongoDB(Learning)

**Version Control:** Git, GitHub

**Tools & Technologies:** VS Code, IntelliJ IDEA
